### **DETAILED ACTION**

1. Acknowledgement is made of the amendment received on 12/11/2007.

### ***Claim Objections***

2. The objections to claims 1-8 have been withdrawn by the Examiner in view of the amendments made to the claims by the Applicant.

### ***Allowable Subject Matter***

3. Claims 1-8 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art of record does not anticipate or render obvious the synchronization processing section of the radio receiver apparatus specifically wherein

“when the number of simultaneously connected cells has reached the simultaneously connectable number, performs first processing that performs despread and delay profile generation for said cells using a first received signal received by said first antenna, and then performs path detection of said first received signal; and

when the number of simultaneously connected cells has not reached the simultaneously connectable number, performs said first processing and second processing that performs despread and delay profile generation using a second received signal received by said second antenna, and then performs path detection of both said first received signal and said second received signal”..

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***
